2. If you are a new user to Zoom, you might be asked to download the Zoom app for your computer, tablet, or cell phone. This will also involve adding a name to your view.
3. Click on “Join the Meeting” or “Launch Meeting”. At this point you will be prompted to enter the meeting ID 830 589 233 and the password 070225. Note these are all numeric characters.
4. You will be prompted to join the meeting with or without video. If you choose to “Join with video”, your face will show on the screen and to all participants in the gallery. If you choose to “Join without video”, only the name you chose will show up in the gallery.
5. You will next be prompted to “Join with computer audio”.

These instructions should allow you to join the Zoom worship service with voice and video. If you wish to mute the service on your side, click on the microphone icon in the lower left corner of your screen. There will be times during the service when the church moderator will mute and unmute the entire congregation.

If you wish to remain anonymous and not have your picture shown to the gallery, click on the Video Camera icon in the lower left corner of your screen next to the microphone icon. If you see a diagonal bar through the video camera icon, your picture will not be shown to the gallery. Only the name you have chosen will show in the gallery.

Clicking on the “Gallery View” will allow you to choose between seeing everybody that is signed on to the Zoom session or just the speaker.

When you are ready to leave the Zoom call, click on the “Leave Meeting” button in the lower right corner and then click again to confirm your choice.
